

Newest Professional Formula Makes Nootropic Waves:

OPTI-BRAIN™

You can now break free of cognitive limits with this neurological enhancer

Optimal Health Systems and Dr. Brimhall are excited to announce the release of **Opti-Brain™**, a formula we've taken a little extra time to research and perfect, instead of rushing it out and missing some key ingredients, like many others have done.

INGREDIENTS PROVEN TO:

Improve mental clarity • Boost ability to focus
Improve concentration • Increase alertness
Raise intelligence • Increase energy
Boost memory • Improve mood

Opti-Brain™ contains over 20 whole food nutrients and herbs from pure, potent sources. Key ingredients include Huperzine A, Bacopa Extract, L-Glutamine, L-Theanine from Green Tea extract, DMAE, GABA, DHA, and more. But these ingredients will not do much if you have any deficiencies in the vitamins and minerals needed to absorb them. We've included a balanced blend including Vitamins A, C, B1, calcium, iron, and zinc. All of these are carefully manufactured in a state-of-the-art GMP certified lab, and each batch is tested for purity.

Our nootropic nutrients and herbs have been carefully chosen for their effectiveness with enhancing focus, concentration, memory, learning, energy, and more. There are a lot of nootropic supplements out there but ONLY OPTI-BRAIN™ is made with whole foods and pre-digested with Opti-Blend™.

The original brain formula was created by Dr. Brimhall and Opti-Blend™ was created by the founder of OHS to deliver whole food nutrients with the same speed and precision as pharmaceutical drugs.

Your brain will feel the boost when your body absorbs our blend of potent ingredients, and you'll finally get that cognitive enhancement you've been searching for. You'll reach new levels of focus, memory, alertness, mood, and more.

There are hundreds of studies on the ingredients in our formula, all of them proving to provide a solid boost to cognitive functions while sharpening your focus and improving mood. Emotions and brain function go hand-in-hand.

The Power of Opti-Brain™

The ingredients in this formula have been proven to enhance cognitive function by sharpening attention and focus, thus leading to improving learning and memory. We at OHS have closely analyzed over 60 years of neuroscience research to develop our potent formula. You will reap the benefits in a matter of hours.

The Core Ingredients

BACOPA HERB has been shown to have both short term and long-term use effects. In short-term, it boosts brain health, focus, and attention. It also levels out anxiety, depression, and regulates dopamine. It has been used in the past to treat memory loss and ADHD.

CHOLINE is an essential nutrient that turns into acetylcholine (the learning neurotransmitter), which leads to improvements in memory and mood.

Please see reverse for more information.

* This statement has not been evaluated by the FDA. This product is not intended to diagnose, treat, cure, or prevent any disease.

DMAE is the building block for acetylcholine. Without it, your body wouldn't receive any signals in the brain or nervous system. It pairs very well with choline and provides an RNA/DNA Factor.

HUPERZINE A inhibits an enzyme that degrades acetylcholine. This defense allows for boosts of a wide range of functions, including mental clarity, concentration, information retention, and neuroplasticity (meaning your neurons keep on forming new links) by increasing acetylcholine levels in your brain.

L-THEANINE is an amino acid extracted from green tea leaves. It quickly increases dopamine and serotonin levels, helping you generally feel happier. L-Theanine has the rare ability to cross the blood-brain barrier, meaning it gets directly into your brain, instead of you having to wait for it to circulate through your system.

HOW TO GET MORE TYROSINE

- SPIRULINA
- SPINACH
- EGGS (EGG WHITES)
- SALMON
- COTTAGE CHEESE
- FAVA BEANS
- AVOCADOS
- BANANAS
- PEANUTS
- TURKEY
- CHICKEN
- EDAMAME

L-TYROSINE can help fight symptoms of depression while improving mood, focus, and energy. It might be the answer you need to help you find the motivation to dissipate that dark cloud looming over your head.
